TRAINING IN WORKPLACE

Training in workplace (FCT) is the module that students attend at the end of the second school year and it takes place in a company.

LAWS

Resolution of 16th January 2017 by the Planning and Vocational and Educational Training General Management that establishes instructions for the organization and development of the training in workplace module in the different education courses that take place in the Autonomous Community of Aragon.
(BOA 31/01/2017)

COMPANIES INVENTORY

- Special employer Centres
- Occupational Workshops
- Standardized Companies

The companies that receive our students are used to working with this kind of young people.

The companies offer the students the opportunity of doing some activities that are not possible to carry out in the highschool, so that they increase their learning.

Besides, students have the possibility of being employed by the company.

GOAL

- Supplement their training in highschool, by doing the specific tasks of their specialty in a company.
- This module takes place during the third term of the second year and it lasts 240 hours.

TRAINING IN WORKPLACE COMPUTER PROGRAMME

In order to start the training in workplace:

- Get in touch with companies
- Sign an agreement among the highschool, the company and the Aragón Government.
- Fill in the different annexes with the coaches and student details in the next webpage:
